# TEXAS HUNTER PRO SERIES

## Performance • Optimal Growth • Reliability Pro Series Directional Fish Feeders

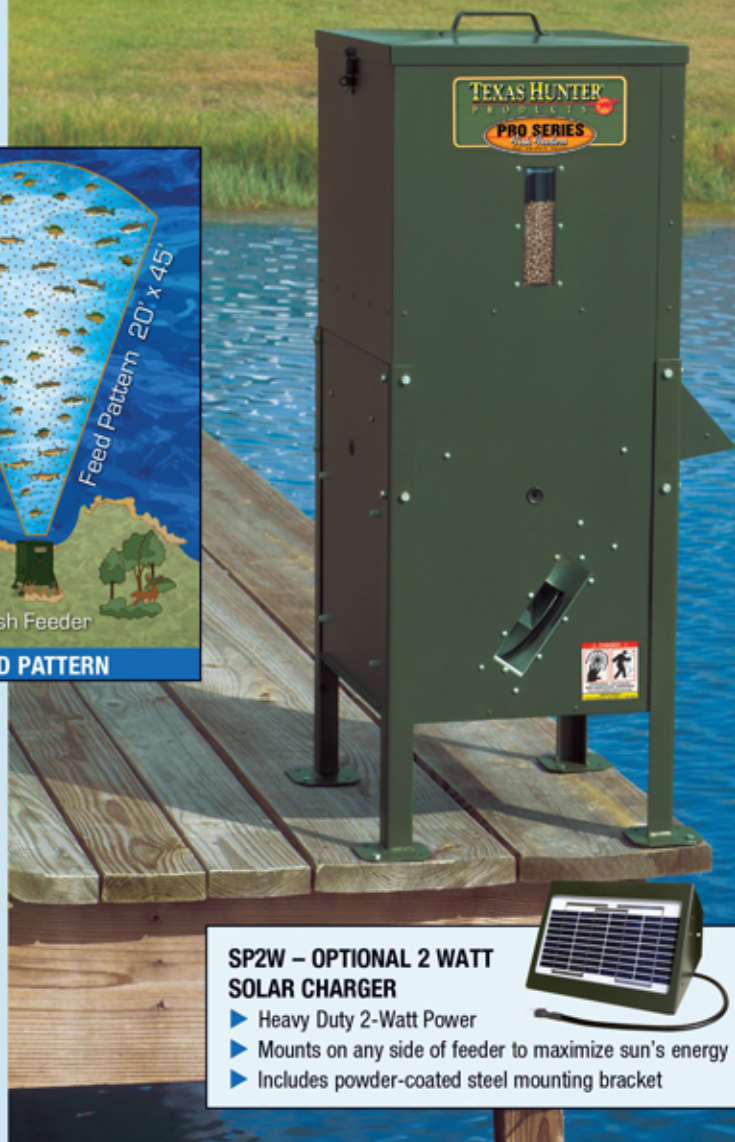

By Texas Hunter are designed to grow your fish community faster. Engineered with advanced features for optimum performance and durability. Our dual motor system introduces a metered flow of feed into a powerful blower assembly that will project the feed in a 20 feet by 45 feet wedge-shaped pattern. The feeder shuts off the feed flow motor prior to turning off the blower eliminating residual feed to attract varmints. The premium Digital Timer, a Texas Hunter exclusive, is a unique feature to the pro series fish feeders and comes with a limited 5 year warranty. The Pro Series patented design is the most reliable distribution system in the industry – Now that's peace of mind.

**EASY TO FILL!**

**Texas Hunter  
Premium Digital Timer  
with 5-Year Warranty**

### SP2W – OPTIONAL 2 WATT SOLAR CHARGER

- ▶ Heavy Duty 2-Watt Power
- ▶ Mounts on any side of feeder to maximize sun's energy
- ▶ Includes powder-coated steel mounting bracket

**LM135 WITH STRAIGHT "DOCK" LEGS**

*"The #1 Fish Feeder Recommended by  
Professional Lake Managers across America."*
